Madam/Sir,

**Subject: Ratings of Basel III compliant perpetual instrument and Basel II compliant various instruments - Reporting under Regulation 30 of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015**

In terms of Regulation 30 read with point 3 of Para A of Part A of Schedule III of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 and SEBI circular no. CIR/CFD/CMD/4/2015 dated 9<sup>th</sup> September, 2015, we wish to inform you that CARE Ratings during the annual surveillance of the ratings has revised the ratings of Basel III compliant perpetual instrument and Basel II compliant various instruments of Union Bank of India detailed as under:

Bond Details	Current Rating	Previous Rating
Basel III compliant Perpetual Bond	CARE AA-/Stable (CARE Double A Minus, Outlook Stable)	CARE AA/Negative (CARE Double A, Outlook Negative)
Basel II compliant Upper Tier II Bonds	CARE AA/Stable (CARE Double A, Outlook Stable)	CARE AA+/Negative (CARE Double A Plus, Outlook Negative)
Basel II compliant Lower Tier II Bonds	CARE AA+/Stable (CARE Double A Plus, Outlook Stable)	CARE AAA/Negative (CARE Triple A, Outlook Negative)

The details of instruments and reasons for downgrade in rating are given in the enclosed rating rationale of CARE Ratings dated 9<sup>th</sup> October, 2017.

This is for your information and appropriate dissemination.

Thanking you.

Yours faithfully,

  
 (Dipak D. Sanghavi)  
 Company Secretary

### Ratings

Instrument	Amount (Rs. crore)	Rating <sup>1</sup>	Rating Action
Lower Tier II Bonds (Basel II)	800.00	CARE AA+; Stable (Double A Plus; Outlook: Stable)	Revised from CARE AAA; Negative (Triple A; Outlook: Negative)
Upper Tier II Bonds (Basel II) @	1,000.00	CARE AA; Stable (Double A; Outlook: Stable)	Revised from CARE AA+; Negative (Double A Plus; Outlook: Negative)
Perpetual Bonds (Basel III)#	2,000.00	CARE AA-; Stable (Double A Minus; Outlook: Stable)	Revised from CARE AA; Negative (Double A; Outlook: Negative)
<b>Total</b>	<b>3,800</b> <b>(Rs. Three Thousand Eight Hundred Crore Only)</b>		

*Details of instruments/facilities in Annexure-1*

@CARE has rated the aforesaid Upper Tier II Bonds one notch lower than the Lower Tier II Bonds in view of their increased sensitiveness to the Union Bank of India's Capital Adequacy Ratio (CAR), capital raising ability and profitability during the long tenure of the instruments. The rating factors in the additional risk arising due to the existence of the lock in clause in hybrid instruments. Any delay in payment of interest/principal (as the case may be) following the invocation of the lock-in-clause, would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of rating compared to conventional subordinated debt instruments.

#CARE has rated the aforesaid Basel III Compliant Additional Tier-I Bonds after taking into consideration its key features as mentioned below:

- The bank has full discretion at all times to cancel coupon payments.
- The coupon is to be paid out of current year profits. However, if the current year's profits are not sufficient, i.e., payment of such coupon is likely to result in losses during the current year, the balance of coupon payment may be made out of revenue reserves and/or credit balance in profit and loss account provided the bank meets the minimum regulatory requirements for Common Equity Tier I [CET I], Tier I and Total Capital Ratios and capital buffer frameworks as prescribed by the Reserve Bank of India [RBI].
- The instrument may be written-down upon CET I breaching the pre-specified trigger of 5.5% before March 31, 2019, and 6.125% on and after March 31, 2019, or written-off / converted into common equity shares on occurrence of the trigger event called point of non-viability (PONV). The PONV trigger shall be determined by RBI.

Any delay in payment of interest/principal (as the case may be) due to invocation of any of the features mentioned above would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of the rating compared with other subordinated debt instruments.

### Detailed Rationale & Key Rating Drivers

The revision in ratings assigned to various debt instruments is based on deterioration in the income and financial profile of the bank due to continued stress on asset quality leading to high provisioning requirement.

The ratings continue to factor in the majority ownership and capital support by the Government of India (GoI), long track record of operations with an extensive branch network, comfortable liquidity profile, average profitability parameters, and moderate capitalization levels.

Continued ownership and support from GoI, asset quality, profitability and capital adequacy are the key rating sensitivities.

### Detailed description of the key rating drivers

#### Key Rating Strengths

**Majority ownership by Government of India:** The bank's credit profile derives considerable strength from parentage of Government of India (GOI) being the majority shareholder in Union Bank of India holding 63.44% stake as on June 30, 2017 and expectations of support in the times of stress. The rating further derives comfort from demonstrated capital

support in the form of regular equity infusions over the past few years. As a part of Government's 'Indradhanush' scheme to revamp public sector banks, GoI infused equity capital of Rs.1,080 crore in the bank during FY16 and additional equity capital Rs.541 crore during FY17 (refers to period from April 01 to March 31). GoI is expected to continue its majority shareholding and provide capital support in times of stress to the bank and is a key rating sensitivity.

**Moderate capitalization levels:** Apart from the equity capital infusion of Rs.541 crore by GoI, the bank has been able to raise capital by way of Additional Tier I (AT I) Bonds of Rs.3,500 crore and Tier II Bonds of Rs.1,750 crore during FY17. The capital raising helped the bank to report Capital adequacy ratio (CAR) (Under Basel III) of 11.79% (P.Y.: 10.56%) with Tier I CAR of 9.02% (P.Y.: 8.14%) and Common Equity Tier I (CET I) Ratio of 7.71% (P.Y.: 7.95%) as on March 31, 2017. The bank further raised AT I Bonds of Rs.500 crore during Q1FY18 (refers to period from April 01 to June 30) which helped the bank to report CAR (Under Basel III) of 12.01%, Tier I CAR of 9.24% and CET I Ratio of 7.73% as on June 30, 2017.

**Comfortable liquidity profile and stable resources profile:** The liquidity position of the bank was comfortable with well-matched Asset Liability Maturity (ALM) profile. The bank's excess SLR investments, healthy term deposit rollover rate and capital raising ability provide comfort. The bank has a stable deposit base and its deposits grew by 10.4% during FY17 with the proportion of Current Account Savings Account (CASA) deposits at 34.44% as on March 31, 2017 as against 32.33% as on March 31, 2016.

#### Key Rating Weaknesses

**Deterioration in financial performance:** During FY17, UBI saw credit growth of around 7% which was in line with the overall banking industry. The bank reported interest income of Rs.32,660 crore during FY17 which was at similar level of Rs.32,199 crore for FY16. The bank's total income showed growth of 5% which was largely supported by around 37% growth in non-interest income (treasury and fee based) income. The bank's Net Interest Margin (NIM) (based on year end total assets) remained at similar level at 2.10% (P.Y.: 2.13%) during FY17. The bank saw improvement in its operational profit which increased by around 32% during FY17. However, due to substantial increase in provisioning (other than tax) which increased from Rs.3,877 crore during FY16 to Rs.7,087 crore during FY17 resulted in bank reporting Profit After Tax (PAT) of Rs.555 crore as compared to PAT of Rs.1,352 crore for FY16. The bank's Return on Total Asset (ROTA) declined to 0.13% for FY17 from 0.35% for FY16. During Q1FY18 (refers to period from April 01 to June 30), the bank reported PAT of Rs.117 crore on total income of Rs.9,568 crore as compared to PAT of Rs.166 crore on total income of Rs.8,917 crore during Q1FY17. Further deterioration in the financial risk profile due to continued pressure on asset quality continues to remain a key rating sensitivity.

**Weak asset quality parameters:** Due to continued moderation in macroeconomic indicators and asset quality review undertaken by RBI, the asset quality indicators across the public sector banks continued to show significant stress. During FY17, the bank's GNPA ratio increased to 11.19% as on March 31, 2017 (P.Y.: 8.70%) and NNPA ratio increased to 6.57% (P.Y.: 5.25%) with net NPA/ net worth being 98.08% (P.Y.: 70.58%). Bank's gross stressed assets (Gross NPA + Standard Restructured Assets + Security Receipts investment) as a proportion of gross advances and net stressed assets as a proportion of tangible networth as on March 31, 2017 increased to 13.33% (P.Y.: 12.03%) and 131.98% (P.Y.: 117.11%) respectively. As on June 30, 2017, the bank reported GNPA Ratio of 12.63% and NNPA Ratio of 7.47%. Any further, rise in NPA levels would continue to be a key rating sensitivity.

**Analytical approach:** The ratings are based on standalone basis and continue to factor in strong support from Government of India (GoI) which holds majority shareholding in the bank.
