a. Risk Management: Objectives and Organization Structure

- The bank has a credible and comprehensive risk management structure and has taken various initiatives to strengthen the risk management practices. The Bank has an integrated approach for management of risk. The risk management policies are commensurate with the business requirements and are as per the guidelines of Reserve Bank of India. The risk management system encompasses the different types of risks viz. credit risk, market risk and operational risk.
- The bank has also formulated board approved country specific risk policy for its overseas branches i.e. Hong Kong and Dubai branch and the policies are drawn based on the risk dimensions of Hong Kong and Dubai economy and the bank's risk appetite.
- The Board of Directors of the Bank has an oversight of Risk Management activities of the Bank. The Bank's Supervisory Committee of Directors on Risk Management is the Apex Body/Committee to oversee various Risk Management activities. The Bank also has separate Committees of Top Executives i.e., Credit Risk Management Committee (CRMC), Asset & Liability Committee (ALCO) and Operational Risk Management Committee (ORMC) to deal with Credit, Market and Operational Risk respectively. Further, the bank has Risk Management organizational structure in place not only at corporate office but also at Regional Offices/Field General Manager's Offices. The broad risk management organizational structure of the bank is furnished as under:

2.4. Credit Risk:

a. Credit Risk Governance

- Credit risk arises from the potential that an obligor is either unwilling to perform on an obligation or its ability to perform such obligation is impaired resulting in economic loss to the bank.
- The Bank is exposed to Credit Risk through Lending and Investment activities.
- Bank has well laid down Loan Policy, Credit Risk Management Policy, Real Estate Policy and Credit Risk Mitigation (CRM) Techniques & Collateral Management Policy which covers guidelines on the entire gamut of Credit Risk Management Process. Loan Policy & Credit Risk Management Policy, spells out the target markets, risk acceptance/avoidance, risk tolerance, preferred levels of diversification and concentration, credit risk measurement, monitoring and controlling mechanisms.
- Bank has an appropriate and independent organizational structure with an oversight mechanism for management of credit risk, which includes Credit Risk Management Committee (CRMC) of Top Executives and a separate Risk Management Department looking after the Credit Risk. Besides, there is a separate Board Level Committee i.e., Supervisory committee of the Board to oversee the functioning of Risk Management and ALM.
- CRMC deals with issues relating to credit policy, procedures and control measures for credit risk on a Bank-wide basis.

 - Thrust area and non thrust area
 - Due diligence criteria
 - KYC norms
 - Method of assessment of finance
 - Minimum credit standards
 - Take over code norms, etc.
 - Prudential & Regulatory ceilings

c. Credit Monitoring System

- Credit monitoring is a continuous process. Bank has separate policy on credit monitoring which includes guidelines on:
 - Identification of EAS/SMA accounts and triggers points for initiating timely action.
 - Periodicity of review of the borrowal accounts based on credit quality. Borrowers with lower credit rating are subject to more frequent reviews.
 - Submission of periodical monitoring reports.
 - Different hierarchical levels for monitoring.

d. Credit Rating Framework

- Bank has comprehensive internal credit rating/scoring models being applied in the Credit Administration and Approval process. Credit rating framework is a combination of quantitative and qualitative aspects. Credit Rating depicts credit quality and predicts probability of default.
- Credit Rating models are in place for Credit Rating of Borrowers, Non-SLR Investments, Inter Bank Exposures and Exposure to NBFC.
- Credit scoring models are in place for retail lending schemes.
- Independent assignment of Credit Rating is in place. The Credit Rating is reviewed annually and for high-risk accounts, credit rating is done half-yearly.
- In terms of Bank's credit rating framework, there are 8 risk-rating grades in standard category and 'investment grade' is fixed up to Credit Rating-5.
- The bank carries out analysis on rating wise distribution of borrowers on obligor basis and portfolio basis at periodical intervals and monitors the same.

e. Credit Approval Committees:

- As per the government guidelines and as per the Board approved structure, Bank has introduced Credit Approval Committee (CAC) at Regional Offices, FGMO and Central Office for credit sanction. Risk Management Department is represented in all CACs.

f. Credit Concentration Risk

- Credit concentration is addressed with the following measures :
- The bank has fixed prudential / regulatory ceilings for various categories of advances for diversifying the credit portfolio. The bank has well diversified credit portfolio.
- Bank monitors the adherence to the exposure ceilings on a quarterly basis. Bank also has a well-established system of monitoring large exposure through monthly monitoring report. The credit portfolio of the bank is well diversified so as to reduce concentration in any area. If bank's portfolio falls below the desired degree of diversification, immediate steps are initiated to shift risk away from individual - group exposure/industry/sector, etc.
- Credit Risk appetite of the Bank is defined through Internal Capital Adequacy Assessment Process (ICAAP) by fixing ceilings limits for various parameters. They are monitored on quarterly basis by undertaking the assessment of ICAAP.

g. Risk Profiling :

- Bank also compiles a Credit Risk Profile Template (RPT) on a quarterly basis, by which it assesses the level and direction of inherent business risks, internal control risk and resultant net credit risk.
- The bank also has ceiling fixed for single borrower / group borrowers.
