

Pillar 3 Disclosure Requirements

For the Quarter ended 30th June 2021

Table DF-2: Capital Adequacy

2.1. Qualitative Disclosures

- 2.1.1. Bank maintains capital as a cushion towards the risk of loss in value of exposure, businesses, etc., to protect the interest of stake holders, more particularly, depositors.
- 2.1.2. Bank has a comprehensive system in place for assessing bank-wide capital requirements based on current and future business activities and monitoring the same on an ongoing basis. The bank considers that capital availability is the central theme in the whole process and its computation is relatable to policy, strategy, business level/composition, and Supervisory concern and Disclosure issues. Towards this, bank has evolved a well laid down Internal Capital Adequacy Assessment Process (ICAAP) policy framework and carries out capital calculation under Pillar-II besides Pillar 1 Capital calculation.
- 2.1.3. The Bank has implemented a Board approved Stress Testing Framework which forms an integral part of the Bank's ICAAP. Stress Testing involves the use of various techniques to assess the Bank's potential vulnerability to extreme but plausible stressed business conditions and to measure the impact of adverse stress scenarios on the adequacy of capital at periodical intervals.
- 2.1.4. In line with RBI guidelines, the bank has adopted following approaches for implementation of New Capital Adequacy Framework - Basel III.
- Standardized Approach for Credit risk
 - Basic Indicator Approach for Operational risk
 - Standardized Duration Approach for Market risk
- 2.1.5. Bank plans capital requirements and reviews the same on quarterly basis. Bank has done capital assessment up to 2026, as a part of ICAAP framework.
- 2.1.6. Bank has taken initiatives to migrate to Advanced Approaches for Risk Weighted Assets computation, Bank is in the process of implementing a software solution.

2.2. Quantitative Disclosures

2.2.1. A summary of the bank's capital requirement for credit, market and operational risk and the capital adequacy ratio on standalone and consolidated basis as on 30th June 2021 is given as hereunder:

(Rs. in million)	
A. Capital Requirements for Credit Risk:	
- Portfolios subject to Standardized Approach	432,450.61
- Securitization Exposures	-
B. Capital Requirements for Market Risk	
• Standardized Duration Approach	21,291.05
- Interest Rate Risk	12,979.24
- Foreign Exchange Risk (including gold)	148.50
- Equity Position Risk	8,163.31
C. Capital Requirements for Operational Risk	
• Basic Indicator Approach	48,021.00

D. Capital Adequacy Ratios	Union Bank Group (Standalone)	Union Bank Group (Consolidated)
Common Equity Tier -1 CRAR	9.73%	9.77%
Tier -1 CRAR	11.04%	11.09%
Total CRAR	13.26%	13.32%

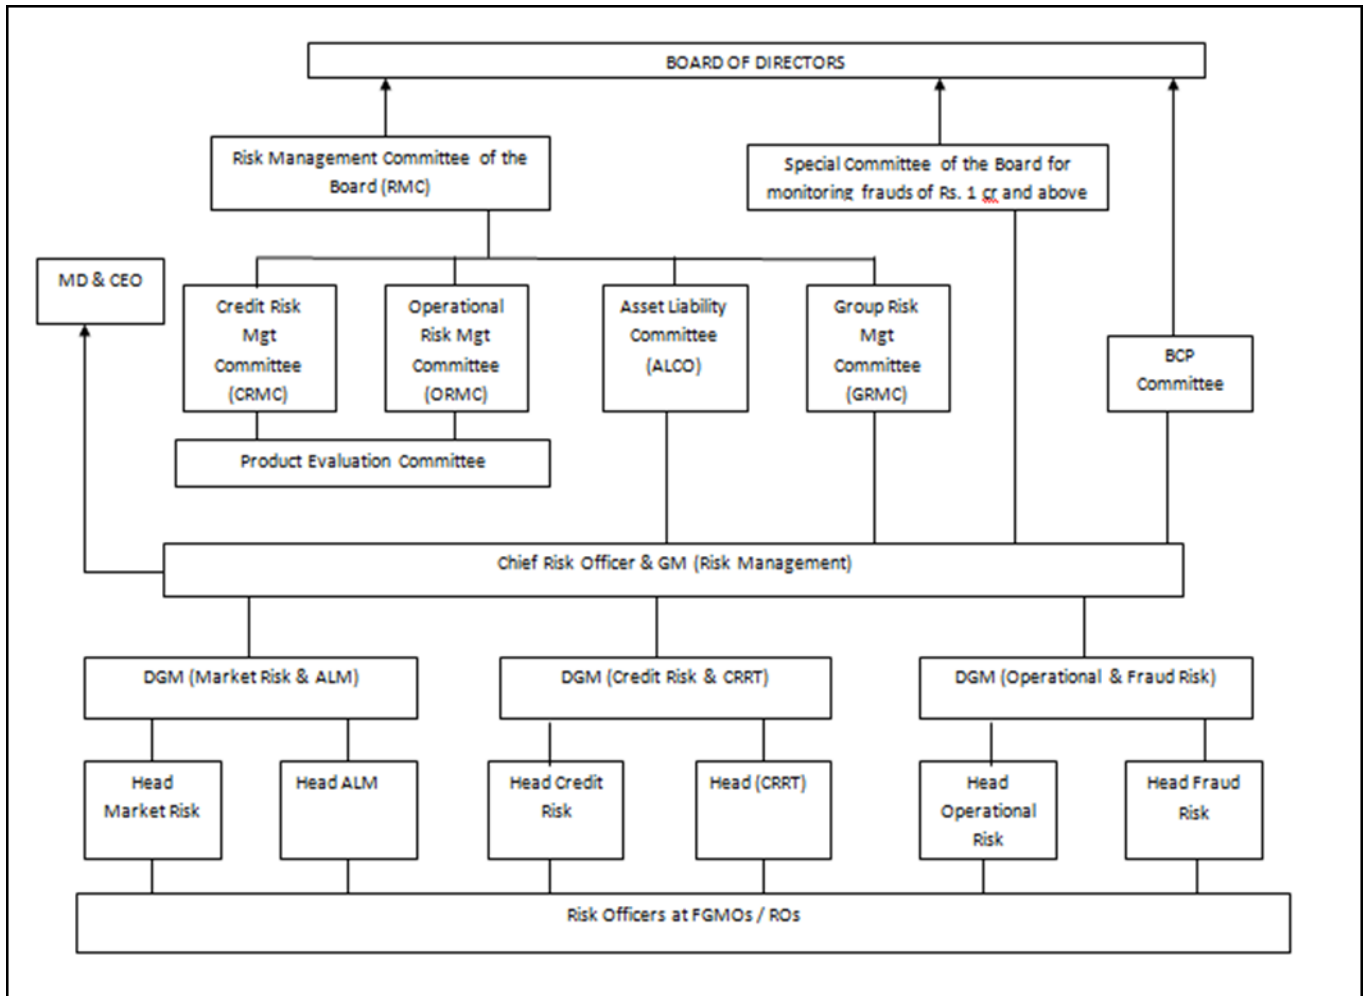

2.3. General Qualitative disclosures

a. Risk Management: Objectives and Organization Structure

- The bank has a credible and comprehensive risk management structure and has taken various initiatives to strengthen the risk management practices. The Bank has an integrated approach for management of risk. The risk management policies are commensurate with the business requirements and are as per the guidelines of Reserve Bank of India. The risk management system encompasses the different types of risks viz. credit risk, market risk and operational risk.
- The bank has also formulated Board approved Country specific risk policy for its foreign branches i.e. Hong Kong, DIFC Dubai and Sydney branch. The policies are drawn based on the risk dimensions of respective countries and the bank's risk appetite.

- The Board of Directors of the Bank has an oversight of Risk Management activities of the Bank. The Bank's Risk Management Committee of the Board (RMC) is the Apex Body/Committee to oversee various Risk Management activities. The Bank also has separate Committees of Top Executives i.e., Credit Risk Management Committee (CRMC), Asset & Liability Committee (ALCO) and Operational Risk Management Committee (ORMC) to deal with Credit, Market and Operational Risk respectively. Further, the bank has Risk Management organizational structure in place not only at corporate office but also at Regional Offices/Field General Manager's Offices. The broad risk management organizational structure of the bank is furnished as under:

RISK GOVERNANCE STRUCTURE

2.4. Credit Risk:

a. Credit Risk Governance

- Credit risk arises from the potential that an obligor is either unwilling to perform on an obligation or his ability to perform such obligation is impaired resulting in economic loss to the bank.
- The Bank is exposed to Credit Risk through Lending and Investment activities.
- Bank has well laid down Loan Policy, Credit Risk Management Policy, Real Estate Policy and Credit Risk Mitigation (CRM) Techniques, Collateral Management Policy & Internal Risk Rating Policy which covers guidelines on the entire gamut of Credit Risk Management Process. Loan Policy & Credit Risk Management Policy, spells out the target markets, risk acceptance/avoidance, risk tolerance, preferred levels of diversification and concentration, credit risk measurement, monitoring and controlling mechanisms.
- Bank has an appropriate and independent organizational structure with an oversight mechanism for management of credit risk, which includes Credit Risk Management Committee (CRMC) of Top Executives and a separate Credit Risk Management Cell looking after the Credit Risk. Besides, there is a separate Board Level Committee i.e., Risk Management Committee of the Board (RMC).
- CRMC deals with issues relating to credit policy, procedures and control measures for credit risk on a Bank-wide basis.

b. Credit Approval Process

- Loan Policy of the bank covers in detail guidelines on credit approval process which among other things include thrust area and non-thrust area, due diligence criteria, KYC norms, method of assessment of finance, minimum credit standards, takeover code norms, Prudential & Regulatory ceilings etc.

c. Credit Monitoring System

- Credit monitoring is a continuous process. Bank has separate policy on credit monitoring which includes guidelines on:
 - Identification and monitoring of Special Mention Accounts (SMA-0, SMA-1 and SMA-2) and trigger points for initiating timely action.
 - Periodicity of review of the borrowal accounts based on credit quality. Borrowers with lower credit rating are subject to more frequent reviews.
 - Submission of periodical monitoring reports.
 - Different hierarchical levels for monitoring.

d. Credit Rating Framework

- Bank has comprehensive internal credit rating/scoring models being applied in the Credit Administration and Approval process. Credit rating framework is a combination of quantitative and qualitative aspects. Credit Rating depicts credit quality and predicts probability of default.
- Credit Rating models are in place for Credit Rating of Borrowers.
- Credit scoring models are in place for retail lending schemes.
- Independent assignment of Credit Rating is in place. The Credit Rating is reviewed annually for investment grade borrowers and half-yearly for non-investment grade borrowers.
- In terms of Bank's credit rating framework, there are 8 risk-rating grades in standard category and 'investment grade' is fixed up to Credit Rating-5.
- The bank carries out analysis on rating wise distribution of borrowers on obligor basis and portfolio basis at periodical intervals and monitors the same.

e. Credit Approval Committees:

- As per the government guidelines and as per the Board approved structure, Bank has introduced Credit Approval Committee (CAC) at SARAL Regional Offices, FGMO and Central Office for credit sanction. Risk Management Department is represented in all CACs.

f. Credit Concentration Risk

- Credit concentration is addressed with the following measures :
- The bank has fixed prudential / regulatory ceilings for various categories of advances for diversifying the credit portfolio and the same is monitored periodically. The bank has well diversified credit portfolio.
- Bank monitors the adherence to the exposure ceilings on a quarterly basis. Bank also has a well-established system of monitoring large exposure through monthly monitoring report. The credit portfolio of the bank is well diversified so as to reduce concentration in any area.
- Credit Risk appetite of the Bank is defined as a part of Internal Capital Adequacy Assessment Process (ICAAP) by fixing ceilings limits for various parameters. They are monitored on quarterly basis by undertaking the assessment of ICAAP.

2.5. Market Risk

- Market Risk Management is covered in Treasury Policy, Market Risk Policy and ALM Policy.
- There is a clear-cut separation between front office, back office and mid-office in Treasury operations.
- Mid-office directly reports to the Risk Management Department.
- Various Limits - for domestic and foreign exchange operations, e.g. Overnight Position limit, Daylight Open Position limit, Value at Risk (VaR) limits, Deal size limits, Stop Loss limits, Aggregate Gap Limit (AGL), Individual Gap Limit (IGL), counterparty limits etc. are in place.
- Value at Risk (VaR) is being monitored on AFS & HFT G-sec, equity Portfolio and forex transactions on a daily basis.

2.6. Interest Rate Risk In banking Book:

- Bank carries out Duration Gap Analysis (DGA) to capture impact of changes in interest rates by 200 bps on market value of equity in terms of RBI Guidelines.

2.7. Operational Risk

- A well laid down board approved Operational Risk Management Policy is in place.
- Presently, Operational Risk is managed through Internal Control System, Internal Audit Process.
- New Product Approval Process is in place.
- Analysis of frauds is done from the angle of operational risk to assess the adequacy and efficacy of internal controls.
- Bank conducts Risk and Control Self-Assessment (RCSA) in respect of various products/process.

Table DF-3: Credit Risk: General Disclosures

Qualitative Disclosures

a. General Qualitative disclosure pertaining to credit risk:

▪ **Overdue:**

Any amount due to the Bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the Bank. For example;

- i. In case of temporary overdrafts, the outstanding will not be overdue up to 15 days. Hence, temporary overdraft, if remaining outstanding for more than 15 days only should be reported as overdue.
- ii. In case of excesses over sanctioned limit/drawing power, the accounts become overdue from the date of such excesses.
- iii. In case of Term Loans and Loans Repayable on Demand, the installments become overdue from the due date of installments.
- iv. Interest due and charged remaining unadjusted becomes overdue from the last day of the quarter, irrespective of interest charged at monthly intervals.
- v. A Bill becomes overdue from its due date. In case of Sight Bill, it becomes overdue if it remains unpaid on presentation.

▪ **Non-Performing Assets:**

An asset, including a leased asset, becomes non-performing when it ceases to generate income for the Bank. Hence, non-performing asset is required to be classified correctly at the right time so that unrealized income on such assets is not recognized in the books of the Bank.

A non-performing asset (NPA) is a loan or an advance where;

- i. Interest and/ or instalment of principal remain overdue for a period of more than 90 days in respect of a Term Loan.
- ii. The account remains 'Out of Order' in respect of an Overdraft/Cash Credit (OD/CC).
- iii. The bill remains overdue for a period of more than 90 days in case of bills purchased and discounted.

- iv. The installment of principal or interest thereon remains overdue for two crop seasons for short duration crops.
- v. The installment of principal or interest thereon remains overdue for one crop season for long duration crops.
- vi. The amount due to the Bank under any credit facility is overdue for a period of more than 90 days.
- vii. The account where the regular/adhoc credit limits have not been reviewed/renewed within 180 days from due date/date of adhoc sanction.
- viii. The drawings allowed against Stock/Book Debt statements older than 180 days (i.e., if the outstanding in the account based on drawing power calculated from stock statements older than 3 months would be deemed as irregular and if such irregular drawings are permitted in the account for a continuous period of 90 days even though the unit may be working or the borrowers' financial position is satisfactory, the borrower account will become NPA).
- ix. The amount of liquidity facility remains outstanding for more than 90 days in respect of a securitization transaction undertaken in terms of guidelines on securitization dated 01.02.2006.
- x. In respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.
- xi. **NPA classification of Credit Card Accounts:**
 - a) In Credit Card Accounts, the amount spent is billed to the card users through a monthly statement with a definite due date for repayment. Banks give an option to the card users to pay either the full amount or a fraction of it, i.e., minimum amount due, on the due date and roll-over the balance amount to the subsequent months' billing cycle.
 - b) A Credit Card Account will be treated as Non-Performing Asset (NPA) if the minimum amount due, as mentioned in the statement, is not paid fully within 90 days from the next statement date. The gap between two statements should not be more than a month.
 - c) Banks should follow this uniform method of determining over-due status for Credit Card Accounts while reporting to credit information companies and for the purpose of levying penal changes, viz., late payment charges, etc., if any.

▪ **Credit Risk Management Policy:**

Bank has board-approved Credit Risk Management Policy besides Loan Policy. Credit Risk Management Policy covers guidelines on the Credit Approval process - Credit Risk Framework, loan pricing and concessions, Loan Monitoring & Controls, Credit Risk Rating Systems - pricing - capital allocation, Portfolio Management & Exposure ceilings, Prudential/Regulatory ceilings, such as industry wise exposure, sensitive sector exposure (capital market/ real estate exposure) and Risk Management of off-balance sheet exposure.

Quantitative Disclosures

b. The total gross credit risk exposures are:

(Rs. in million)

Category	Amount
Fund Based	8,998,642.48
Non Fund Based	2,509,542.02
Total	11,508,184.50

c. The geographic distribution of exposures is:

(Rs. in million)

	Domestic	Overseas	Gross Advances
Fund Based	8,850,090.26	148,552.22	8,998,642.48
Non-fund based	2,502,819.32	6,722.70	2,509,542.02
Total	11,352,909.58	155,274.92	11,508,184.50

d. Industry type distribution of exposures (Fund Based and Non-Fund Based) are as under:

(Rs. in million)

Doubtful - 2	208,278.17
Doubtful - 3	187,450.70
Loss	232,933.14
Total NPAs (Gross)	877,621.87

g. The amount of net NPAs is Rs. 274,374.46 Million.

h. The NPA ratios are as under:

- Gross NPAs to Gross Advances: 13.60%
- Net NPAs to Net Advances: 4.69%

i. The movement of gross NPAs is as under:

	(Rs. in million)
i) Opening Balance at the beginning of the year (Mar'21)	897,881.98
ii) Addition during June'21 Quarter	70,486.19
iii) Reduction during June'21 Quarter	90,746.30
iv) Closing Balance as at the end of the year (i+ii-iii)	877,621.87

j. (a) The movement of Specific Provision (Provisions for NPAs) is as under:

	(Rs. in million)
i) Opening Balance at the beginning of the year	621,541
ii) Provisions made during the year	24,924
iii) Write-off/ Write -back of excess provisions	47,144
iv) Closing Balance as at the end of the year (i+ii-iii)	599,321

(b) The movement of General Provision (provision for standard assets) is as under:

(Rs. in million)

	Std. prov. for Advances	Std. prov. for Derivatives	Total
	A	B	C=(A+B)
i) Opening Balance at the beginning of the year	51,130	62	51,192
ii) Provisions made during the year	10,958	0	10,958
iii) Write-off made during the year	0	0	0
iv) Write -back of excess provisions	0	10	10
v) Any other adjustments, including transfers between provisions	22	0	22
vi) Closing Balance as at the end of the year(01/04/2021 to 30/06/2021)	62,110	52	62,162

k. The amount of Non-Performing Investment is Rs. 42,357.26 Million.

l. The amount of provisions held for Non-Performing Investment is Rs. 38,931.85 Million.

m. The movement of provisions for depreciation on investments is as under:

(Rs. in million)

i) Opening balance at the beginning of the year	62,268.74
ii) Provisions made during the year	0
iii) Write-off made during the year	0
iv) Write -back of excess provisions	2,053.88
iv) Closing balance as at the end of the year (i + ii - iii-iv)	60,214.86

(Rs. in million)

Particulars	Domestic	Overseas	Total
Provision for Standard Assets	60,750	1,360	62,110
Provisions for Standard Derivatives	52	0	52
Total	60,802	1,360	62,162

Table DF-4: Credit Risk Disclosures for Portfolios subject to Standardized Approach

Qualitative Disclosures

a. For portfolios subject to the standardized approach

- Bank has approved the following domestic credit rating agencies accredited by RBI for all eligible exposures.
 - a) CARE;
 - b) CRISIL Limited;
 - c) India Ratings and Research Private Limited (India Ratings);
 - d) ICRA Limited;
 - e) Brickwork Ratings India Pvt. Limited (Brickwork);
 - f) Acuite Rating & Research Limited; and
 - g) Infomerics valuation and Ratings Private Limited.

- Bank has also approved the following 3 international credit rating agencies identified by RBI.
 - a) Standard & Poor's
 - b) Moody's
 - c) FITCH

- Corporate borrowers and Public Sector Enterprises are being encouraged to solicit ratings from approved external rating agencies. The ratings available in public domain are mapped for the purpose of calculation of risk-weighted assets as per RBI guidelines on mapping.

Quantitative Disclosures

- b. The exposure amounts after risk mitigation subject to the standardized approach, amount of a bank's outstanding (rated and unrated) in the following three major risk buckets as well as those that are deducted:

	(Rs. in million)
i) Below 100% risk weight exposure outstanding	4,276,568
ii) 100% risk weight exposure outstanding	1,250,823
iii) More than 100% risk weight exposure outstanding	593,378
iv) Deduction	0.00
Total	6,120,769

DF 17- Summary comparison of accounting assets vs. leverage ratio exposure measure		
	Item	(Rs. in Million)
1	Total consolidated assets as per published financial statements	10,776,179.11
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	(87,831.41)
3	Adjustment for fiduciary assets recognized on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure	0.00
4	Adjustments for derivative financial instruments	60,015.28
5	Adjustment for securities financing transactions (i.e. repos and similar secured lending)	0.00
6	Adjustment for off-balance sheet items (i.e. conversion to credit equivalent amounts of off-balance sheet exposures)	680,757.01
7	Other adjustments	(96,085.48)
8	Leverage ratio exposure	11,333,034.51

(Rs. in Million)

DF-18 - Leverage ratio common disclosure template		
	Item	Leverage ratio framework
On-balance sheet exposures		
1	On-balance sheet items (excluding derivatives and SFTs, but including collateral)	10,640,768.01
2	(Asset amounts deducted in determining Basel III Tier 1 capital)	(96,085.48)
3	Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of lines 1 and 2)	10,544,682.52
4	Replacement cost associated with all <i>derivatives</i>	12,697.33

DF-18 - Leverage ratio common disclosure template		
	Item	Leverage ratio framework
	transactions (i.e. net of eligible cash variation margin)	
5	Add-on amounts for PFE associated with all derivatives transactions	60,015.28
6	Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework	0.00
7	(Deductions of receivables assets for cash variation margin provided in derivatives transactions)	0.00
8	(Exempted CCP leg of client-cleared trade exposures)	0.00
9	Adjusted effective notional amount of written credit derivatives	0.00
10	(Adjusted effective notional offsets and add-on deductions for written credit derivatives)	0.00
11	Total derivative exposures (sum of lines 4 to 10)	72,712.60
12	Gross SFT assets (with no recognition of netting), after adjusting for sale accounting transactions	142,090.00
13	(Netted amounts of cash payables and cash receivables of gross SFT assets)	(142,090.00)
14	CCR exposure for SFT assets	34,882.37
15	Agent transaction exposures	0.00
16	Total securities financing transaction exposures (sum of lines 12 to 15)	34,882.37
17	Off-balance sheet exposure at gross notional amount	1,732,575.75
18	(Adjustments for conversion to credit equivalent amounts)	(1,051,818.74)
19	Off-balance sheet items (sum of lines 17 and 18)	680,757.01
20	Tier 1 capital	585,859.82
21	Total exposures (sum of lines 3, 11, 16 and 19)	11,333,034.51
22	Basel III leverage ratio	5.17%

UNION BANK OF INDIA

RISK MANAGEMENT DEPARTMENT

Liquidity Coverage Ratio (LCR) Qualitative Disclosure: June 2021

LCR aims to ensure that a bank maintains an adequate level of unencumbered High Quality Liquid Assets (HQLAs) that can be converted into cash to meet its liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario specified by RBI.

LCR is the ratio of HQLA to Net Cash Outflow.

$$\text{LCR} = \frac{\text{HQLA}}{\text{Net Cash Outflows over 30 days}}$$

Where Net Cash Outflow = Max ((Cash Outflows-Cash Inflows), 25% of Cash Outflow)

Minimum requirement of LCR as stipulated by RBI is 100% for the calendar year 2019 onwards. LCR is applicable to Bank's domestic operations as well as overseas operations.

HQLA:

Liquid assets comprise of high-quality assets that can be readily sold or used as collateral to obtain funds in a range of stress scenarios. They should be unencumbered i.e. without legal, regulatory or operational impediments. Assets are considered to be high quality liquid assets if they can be easily and immediately converted into cash at little or no loss of value.

HQLA is categorized into two a) Level 1 Assets, and b) Level 2 Assets. Level 2 Assets are further sub divided into Level 2A Assets & Level 2B Assets based on Liquidity & Price Volatility.

Level 1 assets are stock of HQLA without any haircut. Level 1 Assets mainly comprise Cash including excess CRR (Cash Reserve Ratio), Excess SLR (Statutory Liquidity Ratio) securities, Marginal Standing Facility (3 % of Net demand & time liability) & FALLCR (15.00 % of Net demand & time liability). On account of the ongoing pandemic situation and resultant adverse impact on economic activity, RBI has extended relaxations as under:

- Enhanced Marginal Standing Facility (MSF) from 2% to 3% of NDTL till 30th September 2021.
- Reduced CRR limit from 4% to 3% for 1 year (till 26th March 2021) and restored in phased manner to 3.5% from 27th March 2021 & 4% with effective from 22nd May 2021.

A haircut of 15% is applied on current market value of Level 2A asset. Level 2A assets mainly comprise of securities with 20% risk weight. A 50% haircut is applied on current market value of Level 2B asset. Level 2B assets should not be more than 15% of the total stock of HQLA. Level 2B assets mainly comprise Securities with risk weights higher than 20% but not higher than 50%.

Net Cash Outflows

The total net cash outflows is defined as the total expected cash outflows minus total expected cash inflows. In order to determine cash outflows, the Bank, in terms of RBI guidelines, segregates its deposits into various customer segments, viz Retail (which include deposits from Natural Persons), Small Business Customers (those with total aggregated funding up to Rs. 50 Million) and deposits from Non-Financial Customers (NFC) and Other Legal Entity Customers (OLE). Total

expected cash inflows are calculated by multiplying the outstanding balances of various categories of contractual receivables by the rates at which they are expected to flow in, up to an aggregate cap of 75% of total expected cash outflows.

Brief about LCR of the Bank

The Bank during the three months ended June 30th, 2021 maintained average HQLA of Rs. 2,718,840 Million. Level 1 assets are the main drivers of HQLA for the bank. They contribute to 94% of the total stock of HQLA. Based on daily averages for the quarter ended 30th June 2021, Facility to avail Liquidity for Liquidity Coverage Ratio (FALLCR) constitutes the highest portion to HQLA i.e. Around 52% of the total HQLA. Level 2 assets which are lower in quality as compared to Level 1 assets, constitute 6% of the total stock of HQLA against maximum permissible level of 40%.

Bank's exposure is mainly in Indian Rupees. Unsecured wholesale funding constitutes major portion of total funding sources. Retail deposits and deposits from small business customers contributed around 21% and 4% of the total weighted cash outflows, respectively. Deposits from non-financial corporates contributed around 39% of the total weighted cash outflows. The other contingent funding obligations primarily include bank guarantees (BGs) and letters of credit (LCs) issued on behalf of the Bank's clients. Inflows from various counterparties majorly Retail, Small Business Customers, Non-Financial, Financial and others contribute to around 71% of the total weighted cash inflows.

Bank has calculated LCR for all working days over the June 2021 quarter. The average of the daily observation of 65 data points is calculated. The average LCR for the quarter ended 30th June, 2021 is 168.64%, and is well above the present minimum requirement prescribed by RBI of 100% for the Quarter ended June 2021.
