Signature of contractor
(With seal & address of the company)

It is clearly understood that the Employer / Architects reserve the right to reject any tender, including the lowest, without assigning any reasons whatsoever for such rejection

A schedule of probable quantities in respect of each work and specifications accompany these tender documents. The Schedules of probable quantities are liable to alterations, omissions, deductions or additions to any extent at the discretion of the Architects / Employer. Each schedule of quantities should contain not only the rates but also the value of each item of work entered in a separate column and all the items should be totaled in order to show the aggregate value of the entire tender. Rates should be quoted both in figures and words. However, rates quoted in words will be taken as final for calculation purpose.

The tenderer must obtain for himself on his own responsibilities and at his own expenses all the information which may be necessary for the purpose of making a tender and for entering into a contract and must examine the drawings and must consider and inspect the site of the work and acquaint himself with all local conditions, means of access to the work, nature of the work, and all matters pertaining thereto.

The quoted rates in the tender shall include all charges for scaffolding, water and electricity, consumption charges, hire for any tools and plants, shed for materials, marking out and clearing of site. The rate quoted shall be deemed to be for the finished work to be measured at site. The rates shall also be firm and shall not be subjected to change, variation, labor conditions, fluctuations in railway freights or any conditions whatsoever. Tenderers must include in their rates sales tax, excise duty, octroi, works contract tax and any other tax and duty or other levy levied by the central government or any state Government or local authority, if applicable. No claim whatsoever in respect of sales tax, excise duty, octroi, works contract tax or other taxes shall be entertained by the employer.

The calculations made by the tenderers should be based upon probable quantities of the several items of work which are furnished for the tenderer's convenience in the schedule of probable quantities. But it must be clearly understood that the contract is not a lumpsum contract that neither the probable quantities nor the value of the individual items nor the value of the entire tender will form part of the contract and that the employer does not in any way assure the tenderer or guarantee that the said probable quantities are correct.
